jwagar@amethyst-inc.org

**TREATMENT:** STAR is designed to help women at all points in their recovery, from those just beginning to think about substance use as a problem, to those who want support to continue their sobriety. The program’s goal is to work with women at any stage of addiction and recovery and actively engage them in treatment as a foundation for lifelong sobriety.

**About Amethyst** – Since 1984, Amethyst has provided alcohol and drug treatment, supportive housing, intensive case management, and education/employment support for women and their children. The program model focuses on addiction and emphasizes the roles that poverty and trauma play in perpetuating drug and alcohol use.
